## CONFIRMED PACKAGE:

### **Hair Transplant Operation in two consecutive days:**

The surgeon, Dr. Murat Konakcı , personally performs the following procedures:

- Consultation and design of the implant,
- Implantation of the follicular units.

**\*\*Follicular units are extracted by our extraction specialist using 0.75mm - 0.9mm micromotor punch in low velocity (depending on patient's hair thickness which is calculated by micron-meter during the consultation).**

### **The package includes:**

- 3 nights of accommodation at Hotel 5\*: SNG room with breakfasts
- All transfers (airport - hotel - hospital - hotel - airport)
- Translator (english)
- Blood analysis
- Needless pre-anaesthetic
- Local anaesthetic
- PRP Treatment
- Postoperative care and the first wash
- Medications, shampoo and lotion for the postoperative care
- Travel pillow to be used during the first nights after the operation
- Written certificate of the hair transplant operation
- Receipt of the payment
- 12 months postoperative follow-up by HAIRPOL

**NOTE:** If the blood test result comes positive for any viral contagious diseases, the operation will not be performed, and the following costs will be beared by the patient: Blood test, accommodation and transfers.

## AFTER THE HAIR TRANSPLANT:

- **SEXUAL ACTIVITY:** Please avoid any sexual activity during the first **7 days**.
- **ALCOHOL:** Do not consume alcohol for **7 days** after the operation. Although to ensure that the transplanted hair can get the best nutrition, it is recommended not to take alcohol for **30 days** after the operation.
- **TOBACCO:** Do not smoke for **7 days** after the operation, since your scalp can reduce the retention of the new implanted hair due to the modifications that tobacco produces in the circulatory flow. Although to ensure that the transplanted hair can get the best nutrition, it is recommended not to smoke for 30 days after the operation.
- **HELMET:** During the first **30 days**, do not use a motorcycle or bicycle helmet.
- **PHYSICAL ACTIVITY:** Do not practice sports that require great physical activity within **30 days** after the operation. Do not bend or lift heavy objects.
- **SEA:** During the first **30 days** after the transplant, do not swim in the sea.
- **SUN:** During the first **30 days** after the transplant, do not expose the scalp to the sun or high temperatures (sauna).
- **POOL:** During the first **2 months** after the operation, do not swim in a pool.
- **HAIR:** For **1 year**, the hair in the transplanted area should only be cut with scissors.

## RESULTS OF THE HAIR TRANSPLANT:

- The transplanted hair grows for 2 to 4 weeks and then falls back. The fall is normal and somewhat expected and should not concern the patient in any case.
- The transplanted follicles begin to grow after the third or fourth month.
- This process will continue, reaching the final results in month 12 for the frontal zone and month 18 for the crown.

### **Payment of the hair transplant operation:**

The payment of the hair transplant operation is done the day of the operation. The payment can be done in cash (USD, GBP), or with a credit or debit card (VISA and MasterCard). If you choose to pay for the surgery with a credit card, the charge will be made in Turkish Lira, hence the conversion will be made according to the change of the day identified by the Turkish Central Bank. There will also be an additional 18% bank commission.

Please do not hesitate to contact us should you require any further information or assistance.

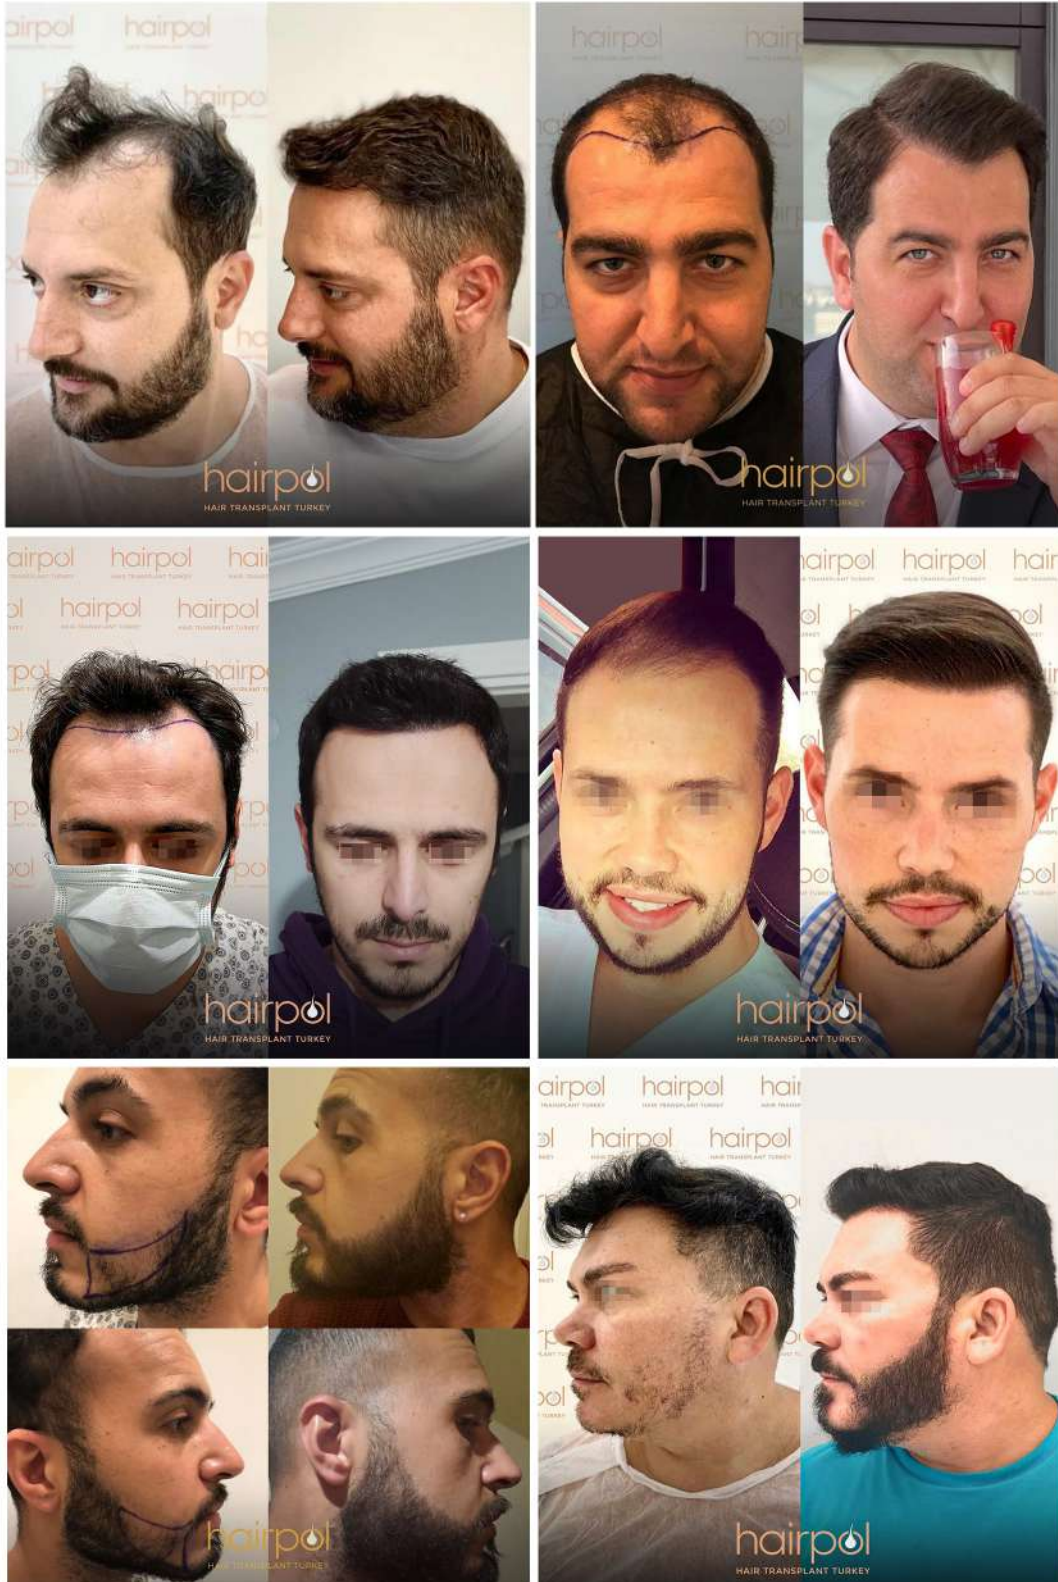

Best regards,

HAIRPOL
