OUR PACKAGE:

Hair Transplant Operation;

All procedures are carried out by our surgeon dr.murat konakci and his fully equipped team.

- Consultation including overviewing the area thats going to be treated,
- Microscopic test
- Hairline Design
- Sedation
- Manages the procedure from the begining to the end of the operation

****Follicular units are extracted by our extraction specialist using 0.75mm - 0.9mm micromotor punch in low velocity (depending on patient's hair thickness which is calculated by micron-meter during the consultation).**

The package includes:

- 3 nights accommodation at 5* hotel. Room capacities are single and only include bed and breakfast
- All transfers (airport - hotel - hospital - hotel - airport)
- Translator (english)
- Blood analysis
- Sedation
- Local anaesthetic
- PRP Treatment
- Post-operative care and the first wash
- Medications, shampoo and lotion for the post-operative area
- Travel pillow to be used during for the first night after the operation
- Written certificate of the hair transplant operation
- Invoice on payment
- 12 months postoperative follow-up by HAIRPOL

NOTE: If the blood test result comes back positive for any viral contagious diseases, the operation will not be performed and the following costs will have to be charged; Blood test, accommodation and transfers.

AFTER THE HAIR TRANSPLANT:

- **SEXUAL ACTIVITY:** You will need to abstain from sex for the first seven days after your hair transplantation.
- **ALCOHOL:** Do not consume alcohol for the first **7 days** after the operation. Although to ensure that the transplanted hair can get the best nutrition, It is recommended that patients do not drink alcohol **7 – 14 days** after after the operation. This is to help the healing process and ensure the skin is hydrated and can heal as fast as possible.
- **TOBACCO:** Do not smoke for **7 days** after the operation, since your scalp can reduce the retention of the new implanted hair due to the modifications that tobacco produces in the circulatory flow. Although to ensure that the transplanted hair can get the best nutrition, it is recommended not to smoke for 30 days after the operation.
- **HELMET:** Do not use a motorcycle or bicycle helmet for the first **30 days** after the procedure.
- **PHYSICAL ACTIVITY:** Do not practice sports that require great physical activity within **30 days** after the operation. Do not bend or lift heavy objects.
- **SEA:** During the first **30 days** after the transplant, do not swim in the sea.
- **SUN:** During the first **30 days** after the transplant, do not expose the scalp to the sun or gh temperatures (sauna).
- **POOL:** During the first **2 months** after the operation, do not swim in a pool.
- **HAIR:** For **1 year**, the hair in the transplanted area should only be cut with scissors.

RESULTS OF THE HAIR TRANSPLANT:

- The transplanted hair grows for 2 to 4 weeks and then falls back. The fall is normal and somewhat expected and should not concern the patient in any way case.
- The transplanted follicles begin to grow after the third or fourth month.
- This process will continue, reaching the final results in month 12 for the frontal zone and month 18 for the crown.

Payment of the hair transplant operation:

All payments are taken on the day of procedure. Payments are accepted in Cash , (USD,GBP,EUR) or with a CC or debit card (visa-Master).

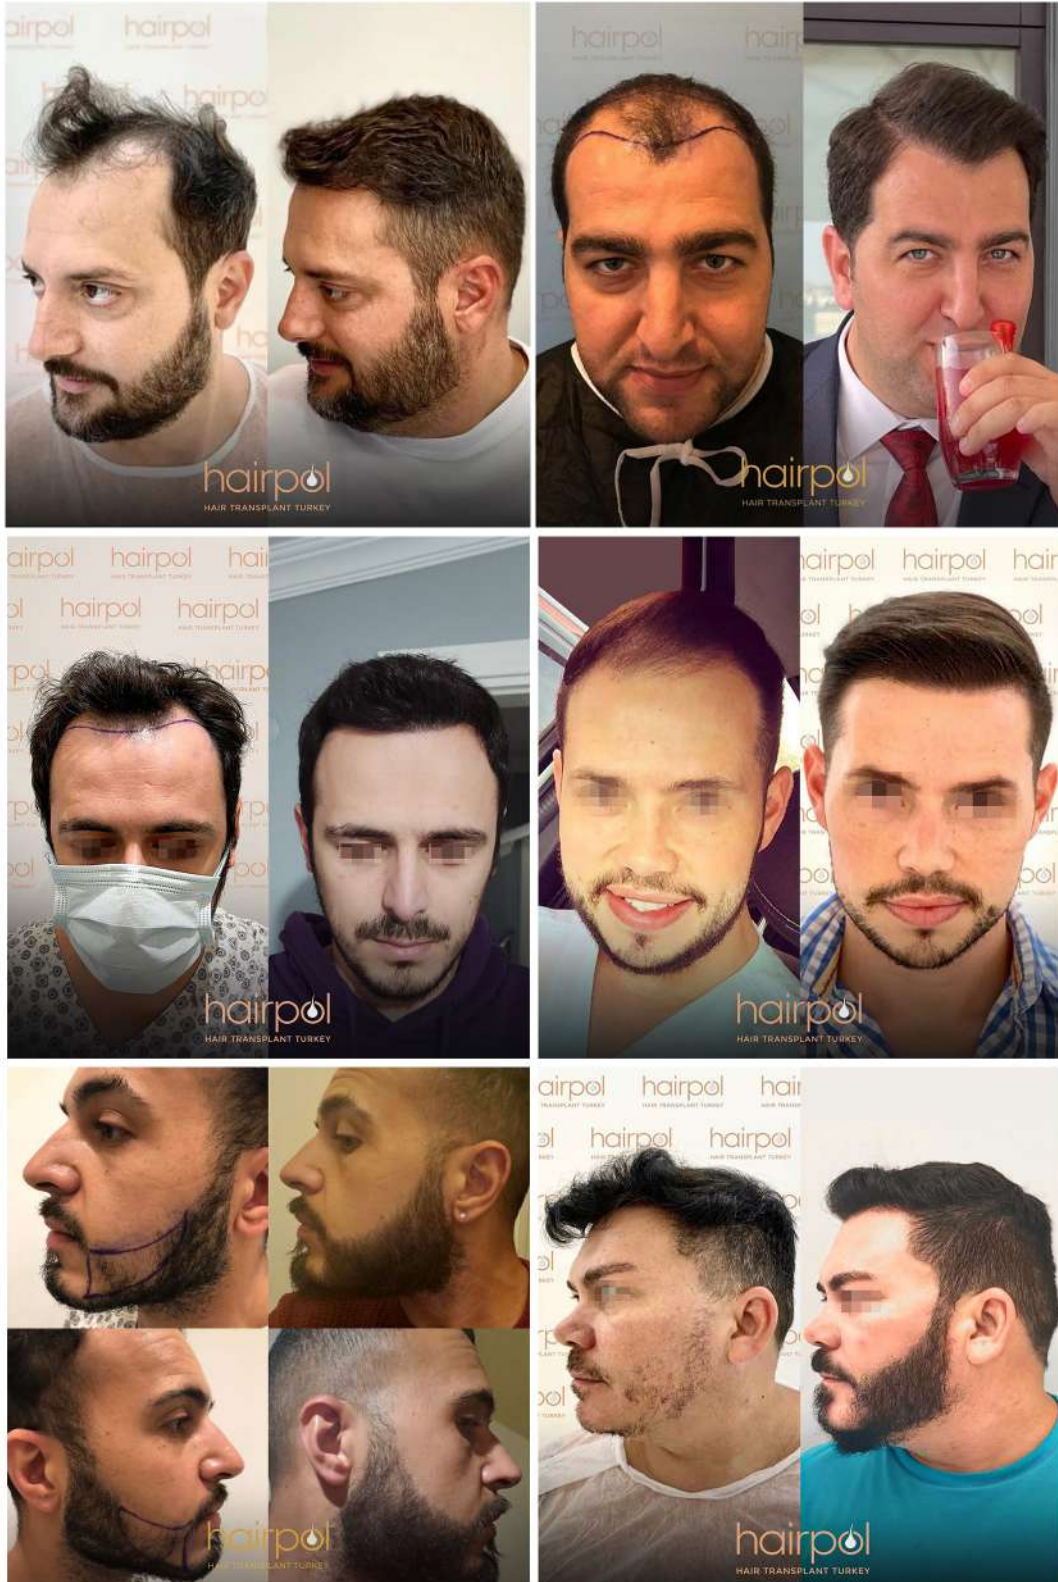

Please do not hesitate to contact us should you require any further information or assistance.
